

NEW!

ZEUS ZIP. A FULL ARCH WITH FULL ADVANTAGES.

VERIFICATION TEMPORARY
Unfinished and used for doctors to verify and make adjustments.

ESTHETIC TEMPORARY
Natural looking for patients to wear 3-4 weeks while final is fabricated.

ZEUS (ZIP) ZIRCONIA IMPLANT-RETAINED PROSTHESIS

ZEUS™ ZIP delivers unsurpassed durability, predictability and convenience with the esthetic touch of MicroDental.

ZEUS ZIP is a Zirconia Implant-retained Prosthesis that helps dentists treat the rapidly growing number of edentulous patients. Made of all Zirconia, ZEUS ZIP is more durable and esthetic than the often high-maintenance hybrid denture alternatives, which makes it easier to clean and more convenient.

To enhance the patient and doctor experience, MicroDental uses a three-step appointment verification process that reduces set-up appointments and offers two fixed rate packages for predictable pricing. The unique ZEUS ZIP verification temporary ensures fit, so no chairside adjustments of the final Zirconia product are needed. Our CAD design experts and higher performance mills provide a predictable result and a variety of esthetic options. This includes monolithic and layered ZEUS ZIP-the only ZIP to offer a digital cutback and micro-layering option to enhance esthetics.

ADVANTAGES

DURABILITY: UTILIZES HIGH PERFORMANCE ZIRCONIA MATERIAL

ESTHETICS: PROVIDES LIFE-LIKE RESULTS DUE TO OUR TECHNICAL MASTERY OF ZIRCONIA

EXPERIENCE: REDUCES CHAIR TIME AND IMPROVES PATIENT SATISFACTION

PREDICTABILITY: USES A VERIFICATION TEMP TO VERIFY THE DESIGN BEFORE MILLING

PROPERLY POLISHED ZIRCONIA DOES NOT WEAR ON OPPOSING DENTITION

5 YEAR WARRANTY
NO REIMPRESS REQUIRED

MADE IN THE USA

DEVELOPED BY LEE CULP, CDT
